Services

Affinity Funerals are here to provide professional help and experience at one of life's most challenging times.

Caring

A qualified funeral director will personally assist you with every aspect of care for your loved one, from the moment of death until they reach their final resting place.

Organising

Affinity Funerals provide complete support for your family, whether co-ordinating the event itself, liaising with celebrants or clergy, placing funeral notices, filing paperwork and full mortuary services – anything your event may require.

Remembering

Our team are highly experienced at creating touching photographic and video tributes, as well as service sheets and memorial books, music and floral tributes.

Personalizing

We help you create the funeral you desire for your loved one, advising you on ways to celebrate their memory, and tailoring our services to meet your needs and budget.

Headstones & plaques

Headstones and Plaques are a lasting tribute, providing a point of focus for mourning and a record for future generations.

Designs

Affinity Funerals can provide advice and assistance in the personalisation, purchase and erection of granite headstones, as well as granite, brass, bronze and Returned Services plaques. We can also arrange additional inscriptions and restoration of existing monuments.

We have sample plaques in our funeral home for guidance or speak to your Funeral Director about the design options available.

When a death occurs

Following a death, many people are unsure how to proceed – we hope the following information helps to guide you.

At home

When someone dies at home, you should contact their doctor as soon as possible, who will arrange for a medical death certificate to be issued.

You will also need to find a funeral director, whose role is to assume responsibility for the deceased and organise their transfer to a funeral home.

In hospital

When a loved one dies in hospital or residential care, the staff will contact the family. They will also take care of the medical formalities and may assist you in finding a funeral director, who will arrange for the transfer of the deceased to a funeral home.

If you have decided on cremation, you should advise the nursing staff, as the doctor will need to prepare the appropriate certificate.

The Coroner

If your loved one dies suddenly or unexpectedly as a result of an accident or suicide the Coroner may become involved. The Coroner's office will liaise directly with the family and your funeral director will also be able to guide you through the usual Coroner's process.

Pre-planned funerals

A little advance thinking allows you to make important decisions in your own time, free from the stress and anxiety that surrounds bereavement.

Benefits of pre-planned funerals include:

- Ensuring your preferences and choices are clear to those organising the service
- Reducing financial pressure on family at a difficult time
- Pre-paid funerals of up to \$10,000 are excluded from asset testing when assessing subsidies for long term residential care.

FDANZ Pre-Paid Funeral Trust

The FDANZ Pre-Paid Funeral Trust is an officially endorsed scheme, guaranteeing that a lump sum is available to cover the cost of a funeral – whenever it is needed. Acceptance to the scheme is guaranteed with no medical assessment and it comes with a 21-day 'free look' period.
